Huggins Credit Union marked a significant milestone with the official launch of its membership card, hosted at the Valpark Chinese Restaurant on September 30th. The event, held just ahead of the Credit Union's annual Anti-Money Laundering and Counter-Financing of Terrorism (AML/CFT) training, signaled a new phase in enhancing member identity, access, and service experience.

In a brief but meaningful ceremony, members of the Board of Directors and Statutory Committees were among the first to receive their new membership cards. The introduction of the card is designed to strengthen member engagement and improve access to services, while reinforcing the Credit Union's commitment to profit for them and not from them.

The launch sets the stage for a wider distribution to the general membership in the coming months, as Huggins Credit Union continues to invest in initiatives that bring added value and pride to its members. The credit union will use the card to encourage the members with a business to showcase their products and services to other members.
